## Digital Business Requirements Analyst/Intern

<b>Project Title</b>	Digital Business Requirements Analyst/Intern
Project Summary	A "bottom's up" approach has the undergraduate or master's level intern directly engaging the customer, conducting research, drafting 'client centric' business requirements documents, and maintaining a focus on identifying the needs of their project above all other priorities.
Country	United States

### **Project Description**

An intern will have an opportunity to develop their business skills in gathering information, maintaining customer relationships, managing customer expectations, conducting research on innovative technology, providing empirical analysis, and drafting agnostic business requirements from the perspective of the client. This internship provides the opportunity to work on a variety of projects that last 30 to 130 days, use elements of Agile project management, and gain a basic understanding of operations, cybersecurity, governance and risk management for a global agency.?

#### **Required Skills or Interests**

Skill(s)
Analytical writing
Data analysis
